

RAMROD Pro-Series 1350 brings power and experience

Yorkton, SK – April 2021 – Big power in a small size is the RAMROD Pro-Series 1350's calling card. Now offering a 35hp Briggs and Stratton engine, the 1350 is the machine to get the job done.

When you buy a RAMROD, you buy the strength of experience. RAMROD has been on the vanguard of mini skid-loader development for over 40 years, ever since introducing the first models in North America. Briggs and Stratton is one of the most experienced engine builders in the world, with over 110 years of expertise behind it.

The result is a machine with the features you need. The RAMROD rigid track system helps you through any terrain, or use the "Turftred" tracks with no lug pattern to preserve the turf. Both tracks are easily replaced in under an hour. This model has a 1350 lb. lift capacity, self-leveling lift arms and a powerful hydraulic pump. Full 360 degree operator visibility helps you work safely.

Over 70 attachments can help you take on any job, and the quick attach accessory brackets ensure you can easily adapt to every situation.

Power, capability and experience, that's what the RAMROD Pro-Series 1350 brings to you.
